

**Introduction** – The purpose of this note is to provide installation instructions and comments on a patch for the CQ/X Client software. The patch applies to version 1.7.9 of the software and is provided to implement the enhancements and fix the problems described below.

**Previous Patches** – This is the tenth patch for version 1.7.9. Users of version 1.7.8 that have installed all of the patches for that version and Patches 179-01, 179-02, 179-03, 179-04, 179-05, 179-06, 179-07, 179-08, 179-09, 179-10, and 179-11 can apply this patch without downloading version 1.7.9. Other users should first download and install a full copy of version 1.7.9 from [www.no5w.com](http://www.no5w.com) then apply Patches 179-01, 179-02, 179-03, 179-04, 179-05, 179-06, 179-07, 179-08, 179-09, 179-10, 179-11, and 179-12 in that order.

**Installation** – In addition to these notes the zip file associated with this patch contains a setup file for automatically installing the patch in C:\ProgramFiles\CWSoft\ **WARNING: Please note that the setup file assumes that you have installed the program in C:\Program Files\CWSoft\.** If this is not the case you can still run the setup but following this you will need to manually copy each of the files to their corresponding directories in your location. Here's a list of the files contained in this patch and a description of where they will be installed.

File	Installation
CQXClient.exe CabrilloTags.txt	These are the main executable, and a file containing the Cabrillo tag definitions. They replace files of the same names in the main directory which in the standard installation is C:\Program Files\CWSoft\CQXClient\

**Problems Addressed/Enhancements** – The following problems/enhancements are addressed.

Problem/Enhancement	Description
When testing the spelling status display for the Florida QSO Party I notice that it does not respond to edits of the QSO information.	This problem has been fixed.
When using the Google Map path multiple crossings are handled automatically except for the case where the starting county has multiple crossings.	This problem remains open.
