

Introduction – The purpose of this note is to provide installation instructions and comments on a patch for the Pile Up Practice software. The patch applies to version 2.0.0 of the software and is provided to implement the enhancements and fix the problems described below.

Previous Patches – This is the first patch for version 2.0.0. If you have not installed version 2.0.0 you should do so before installing this patch.

Installation – In addition to these notes the zip file associated with this patch contains a setup file for installing the patch in C:\ProgramFiles (x86)\CWSoft\PileUpPractice_200. Here's a list of the files contained in this patch and a description of where they will be installed. PileUpPractice is a 32-bit application.

File	Description
PileUpPractice.exe	The executable that runs the application. It will be located in the PileUpPractice_200 directory shown above.
PracticeSetupAndUse.pdf	Documentation describing how to use the application. This file is also located in the PileUpPractice_200 directory shown above.

Problem/Enhancement	Status
Menu items under Review incorrectly indicate available review items when there are none	Fixed
Double-clicking on a computer logged result on the scoreboard results in an error condition.	Fixed
It would be helpful for the user to be able to review a history of attempts for each of the pileups including number of attempts, best/worst score, average score, and time since the most recent attempt.	This has been implemented as Practice History under the Review menu.
